How is the Trinity Alternate program different than traditional junior high?

Trinity alternate program allows students to re-engage in their learning and meets them where they are at, building the literacy, numeracy and social-emotional skills that students will need for high school.

Small, caring and understanding faith-filled school environment where students are accepted, encouraged and treated with dignity.

Less formal and structured than a traditional school. Individual learning plans are developed with student, caregivers and school.

Timetables and schedules are created with student, caregivers and school, with the flexibility to support each individual's learning.

Who would be the ideal learner to attend the Trinity Alternate program?

Students who have difficulty attending school due to mental health conditions, such as anxiety or depression.

Students who have had gaps in attendance through the pandemic and have had a hard time re-engaging in school.

Students who have had difficulty socially engaging with peers, or who feel overwhelmed by large numbers of students in traditional classrooms and schools.

*Although Trinity Alternate is a grade 9 program, grade 8 students may be considered.

What are the expectations/requirements for students attending Trinity Alternate?

READY ~ Students need to want to be back at school. It is OK if you have gaps in your education. We will meet you where you are at.

COMMITTED ~ Students need to be committed to regular attendance (based on the agreed upon schedule), committed to learning and committed to being responsible and respectful.
